Starting point/trailhead:	Farra d'Alpago – sporting area
Coordinates:	Geogr. 46.1192255,12.3498121
Loop	

Il percorso circolare parte da Farra d'Alpago – zona lago/ impianti sportivi e costeggia per un buon tratto il lago di Santa Croce. Continua poi in salita per raggiungere il Santuario della Madonna del Runal. Per il ritorno si attraversa un tratto di bosco prima incrociare due Ponti Romani e la loc. Buscole.

Start from the parking areas of the sports facilities, where there is the educational sign at the entrance of the lake area, then follow the path along the lake to the left, immediately passing a pedestrian bridge and continuing to the Madonna del Lago. The trail ends at Poiatte, where you cross the state road to continue in the street between the houses where there is a beautiful fountain. Go up to the left and immediately to the right passing under the portico of a barn. Here start a very steep path, which crosses some roads, to emerge on the road that goes from Pianture to Mezzomiglio. Continue for a stretch along the asphalt road slightly uphill and, after the straight, on the left branches off the dirt road to the sanctuary of the Madonna del Runal (warning signs). The road is pleasant and almost flat, only the last few hundred meters are more steep. After the well-deserved stop at the Sanctuary, you can start the descent down the road for a hundred meters to take a steep path to the right that goes down into the woods. You meet a typical ruin of the house with barn, the Alpage is famous for the Alpage sheep, so (attention) go down to the right valley (yellow stamps on the trees) for tracks a bit 'steep. You arrive at a stone bridge over a rock split. Further on there is another one on Spert's valley. The two bridges are known as Ponti Romani. Once you reach the asphalted road (bracca and cableway) you go down a stretch of asphalt and to a bridge you take the path on the left that quickly leads to the bottom of Buscole from where, shortly along the sidewalk, you return to the starting point.
